

# What is a Chromebook?

- A **Chromebook** is simply a **Laptop** that uses **ChromeOS** and the **Google Chrome Browser** to help you accomplish tasks

○

- Your **Chromebook** will come with a **Webcam**, **Trackpad (Mouse)**, and **Keyboard**

○

- On the backside of the unit, there are connections you **may or may not be** familiar with

○

- For **AESD** students, all we are concerned with are the following
  - DC IN
    - This is where you plug in the charging cable
  - HDMI
    - You can connect an **HDMI** cable and project the chromebook onto a Smart TV or a Monitor
  - USB 3.0
    - Headsets, Headphones, Flash Drives can be connected to here
  - USB 2.0
    - **See USB 3.0**
  - Headphone Jack (Not Shown)
    - Standard Headphones can be plugged into this slot (3.5mm)
